Corporate Mission

eMobile Ltd's corporate mission is to extend consumers' mobility through innovative mobile commerce services. eMobile's success is due to its unique ability to deliver a rich client experience without compromising transaction performance or security.

About eMobile

eMobile Ltd was formed in June 2000 by former IBM & local MNC executives with a combined total of over 45 years of IT industry experience. The company is headquartered in Singapore with an established subsidiary in Indonesia. Our goal is to become a leading player in the region to provide innovative cross-industry mobile commerce solutions and services. eMobile will offer these solutions & services either directly or through its own subsidiaries and/or business partners.

Products and Services

eMobile's mATM Services provide participating banks a cost-effective retail banking and payment service delivery directly to their clients' mobile phone. All mATM transactions are protected by an end-to-end 128-bit 3DES encryption and transaction PIN that is administered by the issuing banks.

- **mATM Banking** allows the banks' clients to perform their banking using their mobile phone at anytime from anywhere
- **mATM Payment** allows the banks' clients to debit their bank account to pay participating merchants for retail purchases.
- **mATM Cash** allows the banks' clients to withdraw cash from their bank account at participating merchants.
- **mATM Prepaid Refill** allows participating merchants to sell electronic refills and digital contents to mobile subscribers
- **mATM Remittance** allows participating merchants to provide remittance service that allows their clients to send/redeem electronic cash. Neither sender nor beneficiary needs to have any bank account to use mATM Remittance service.
